# Sharing a Repository

All hackathon participants are required to create a github account and create a repository for their project. Once the repository is created, which the Repository Name should be the name of your group, please share the repository with us by navigate to the main page of the repository then clicking settings button on the right:

On the top left, click Collaborators:

In the search field, search for Teradatahackathon:

Collaborators
Push access to the repository

This repository doesn't have any collaborators yet. Use the form below to add a collaborator.

Search by username, full name or email address

Teradatahackathon

Add collaborator

Teradatahackathon

Select Teradatahackathon and click Add collaborator. Now it should have added Teradatahackathon to the collaborators list.
